G. O. P. ROLLS UP HUGE PLURALITY IN MAINE

RECORD BREAKING VOTE IS PILED UP

PORTLAND, MAINE, Sept. 14.—Maine gave an overwhelming plurality to the Republican ticket in the state election yesterday. With a total vote larger by 55,000 than the highest ever previously cast in the state, Frederick H. Parkhurst, of Bangor, was elected governor by a margin of 65,000, over his Democratic opponent, Norland G. McIntire, of Norway. The plurality was 17,000 more than the largest obtained by any other gubernatorial candidate in the history of the state.

Four Republican congressmen were elected by large pluralities. Congressman Wallace H. White, Jr., John A. Peters, and Ira G. Hersey, retained their seats, and in the first district, where Congressman Louis B. Goodall, Republican, did not seek reelection, Carroll J. Brady, of Portland, Republican, was chosen.

Every member of the state senate will be a Republican, while of a membership of 151, in the state house of representatives, the Democrats succeeding in electing fifteen.

In the last legislature there were two Democratic senators and 41 Democratic representatives.

The vote of the state for governor, with returns from forty small towns and plantations in remote districts, missing, was:

Parkhurst (R), 133,817; McIntire, (D), 68,819.

The increase in the total vote was very largely accounted for by the presence of women at the polls for the first time. All over the state the women showed themselves eager to grasp the opportunity of exercising their new privilege, and they were undaunted by a heavy downpour of rain in the afternoon. The results showed that most of them voted the Republican ticket.

League One of Chief Issues

As the returns came in, showing from the first, evidence of a tremendous Republican sweep, Democratic state leaders were silent as to the possible significance of the vote with relation to the presidential election in November. Colonel Parkhurst after being secured of his election, gave the viewpoint of the Republicans in a statement in which he pointed out that the campaign has been "vigorously contested" by the Democrats on national issues, and said that the outcome gave "most conclusive evidence that the voters of Maine resent the autocratic and un-American administration that the Democrats have given us."

Endorsement of Harding and Coolidge

He declared that it was "equally an endorsement of Harding and Coolidge." Matters of merely state importance were hardly touched upon in the campaign. The leading speakers were men of national prominence, both parties striving to effect a good showing in the "barometer states," the only state in the nation to hold its state election in advance of the voting for president.

The chief theme of all these speakers was the League of Nations, upon which they upheld their respective national party platforms.

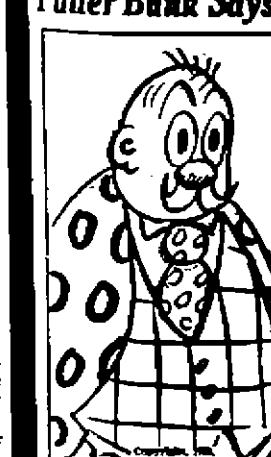

The only woman, who was a candidate for public office at the election, succeeded, was defeated. Mrs. Margaret Dyer, of Bar Harbor, was the Democratic candidate for register of probate in Hancock county.

Consistently Republican

Maine has gone consistently Republican in its state elections since 1882. Except in 1910, and in 1914. The plurality has averaged about 15,000, and the tradition is that 15,000 plurality points to success for the national ticket in November. The Republican plurality in 1916 was 13,579, but in November 1920 it was 65,000.

Yardmen's Strike Ends

CHICAGO, Sept. 14.—Admission by John Grunna, leader of the striking yardmen, and engineers in the Chicago switching district, that the walkout had ended was made public today. At meetings called by the men last night big majorities were reported in favor of returning to their former positions.

Railroad managers today reported more applications from their former employees for work. The men are returning, the road officials announced, as new employees.

'Nation Must Stand Behind Pacific Coast States To Put Limit On The Oriental Immigration'--Harding

MARION, O., September 14.—To a delegation of Californians, Senator Harding declared today that the nation must "stand behind" the states of the Pacific coast to relieve them of the difficulties of oriental immigration and must see that only such aliens can be assimilated and imbued with thorough Americanism as admitted.

The dangers of racial conflict, said the Republican nominee, "must be recognized and provision made to reduce them to a minimum. He suggested that such steps could be taken without offensive reflection on any race and without raising the question of racial inferiority or inequality."

In his speech to the Californians the senator also suggested the necessity of a protective tariff less to aid American farmers and replied at length to Democratic charges of a Republican "senate oligarchy." He reminded the voters that senators are elected by popular vote, and declared the Democratic leaders were opposing senate influence because they wanted to perpetuate "autocratic personal government."

Governor William M. Stephens of California, as spokesman for the delegation, and in a short address complimented the keen interest of the west coast in the senatorial election, and the importance of the question of the tariff and other issues. Those who made the pilgrimage across the continent to hear the senator's front porch speech, included several state Republican leaders and representatives of a number of California civic, business and political organizations.

"Oligarchy" Broke Up Autocracy

In his reference to the senate oligarchy charge, the nominee declared it was not surprising that the Democrats should be depressed because congress had exercised its constitutional powers during "a seven year period of, fine words, much deliberation, tinkering with business, and unwarranted assumption," by the executive.

"The senate oligarchy as they call it, and the oligarchy of the house of representatives," he continued, "forced them toward efficiency in making war and forced them toward some efficiency, though much belated, in reconstruction for peace, and interfered to stave the profligate waste of the tax."

Elephant Goes On Rampage

SALINA, KANS., September 14.—It requires three rounds from his army rifles here yesterday to kill "Snider," a trained elephant, belonging to a circus slaying here. The animal had gone mad just as the circus was about to open and hundreds of persons were scared about the animal.

Before being killed the elephant upset many cars containing other animals, and threw one cage, containing four lions, thirty feet. The afternoon circus performance had to be abandoned.

The elephant was valued at \$10,000.

War Veterans To Parade

WASHINGTON, D. C., September 14.—Men who have been foreign service in the armed forces of the United States will participate in a parade that will be held this evening in connection with the annual encampment of the veterans of foreign wars now in session here.

Approximately five thousand delegates, who are in attendance are expected to march down Pennsylvania avenue.

Secretaries Baker and Daniels and Major General John A. Lejeune, commander of the Marine Corps, have been invited by Colonel F. Warren Kirtland, commander-in-chief of the veterans, to review the parade.

BIG SLUMP IN GRAIN MARKET

CHICAGO, September 14.—Big breaks in the price of wheat, corn and oats took place today, started by acute depression of sterling exchange. Wheat dropped as much as 9 1/2 cents a bushel, and closed semi-demoralized at the bottom figures of the day, \$2.39 3/4 to \$2.40 for the December delivery and \$2.36 1/2 for March.

The smash in prices carried corn down 5 3/4 cents and oats 5 3/8 cents. Shutting down of several food manufacturing plants added to depression and so too did reports that on instruction from Europe seaboard wheat exporters had suddenly withdrawn from the market. Besides, there were indications that rural holders of corn were liquidating, influenced by prospects of a huge crop.

The greater part of the decline came just before the market closed. Prices tumbled rapidly in the absence of any aggressive support.

WASHINGTON, Sept. 14.—American railroads handled a greater volume of traffic during August than ever before during that month, according to reports compiled today by the American Association.

During the four weeks ended August 28, 3,833,822 cars of commercial freight were loaded compared with 3,580,367 cars in the same period of 1919, and 3,619,026 cars in 1918, the reports showed. During the week ended August 28, the total cars loaded was 985,644, as against 924,637 for the corresponding week in 1919.

Freight congestion which was acute after the southwest's strike in April has been largely cleared up, according to the association.

Anti-Red Rioting In Petrograd

LONDON, September 14.—Serious anti-Bolshevik rioting is taking place in Petrograd. It is declared in reports from that city received in Berlin, says a dispatch to the Exchange Telegraph Company, from the German capital filed yesterday.

Six of the Bolshevik commissioners, it is asserted in these advices, have been drowned in the Neva, while others have been compelled to seek places of refuge.

PARIS, September 14.—Rioting took place in Petrograd when news of the Soviet military defeat reached there, according to a report which the French foreign ministry has received through Copenhagen. The rioting, the report declared, assumed the proportions of a counter-revolution, and many of the commissioners were killed.

At the foreign office it was said credit was given the Copenhagen dispatch, except for one portion of it which declared the Soviet fleet had mutinied and fired on Kronstadt.

What They Say Of Results In Maine

NEW YORK, September 14.—Commenting on the result of yesterday's election in Maine, George White, chairman of the Democratic national committee, today issued the following statement: "This is the Republicans' day of rejoicing. They planned, labored and

tried to rob them of any of their med of joy. With a splendid organization and with the expenditure of every effort possible to great financial, they prepared the Republican state of Maine for this state election. In the hope of persuading the country that

the trend is heavily Republican in the national race.

"And the Democratic party been presented the same opportunity in a state where the trumpet call of Democracy means as much as the clarion of Republicanism in Maine, we should have made as nearly the same efforts possible with the same psychology in mind.

"We shall have roles for the league in November, from thousands of the men and women who support Colonel Parkhurst. On a certain morning in November, our time for rejoicing will come, and in the meantime we gaze cheerfully upon today's Republican demonstration and do not begrudge it to them at all."

COOLIDGE

BOSTON, Sept. 14.—Governor Coolidge, Republican candidate for vice-president, in commenting today upon the Maine election, said:

"It would look as if the national election already has been determined. Such a decisive vote in Maine must indicate the trend of public opinion throughout the nation. The result is distinctly due to national causes. Colonel Parkhurst is a strong character and popular in Maine, but strong and popular as he is, the result can not be attributed entirely to his personality."

"The enormous victory means that the nation as a whole is tired of the national Democratic administration."

HAYS

NEW YORK, Sept. 14.—Will H. Hays, chairman of the Republican national committee, commenting today on the election results in Maine, said:

"Maine has pointed the way. The result gives the greatest assurance to all well-wishers of good government regardless of past party affiliations."

"The North Star of the Union is again illumined."

"Maine continues American."

"This overwhelming Republican victory unmistakably evidences the demoralization of the Democratic organization, the repudiation of the administration of their leader, Woodrow Wilson, and the complete condemnation of the campaign conduct of Candidate Cox."

"The women, too, have demonstrated their dependability in this crisis. It means much for the welfare of the republic."

DANIELS

WASHINGTON, Sept. 14.—Secretary of the Navy Daniels, who made speeches in Maine for the Democratic ticket, commented upon the election here today in a statement which said that the majority for state office in September does not forecast anything as to the November result.

RED ARMIES START NEW OFFENSIVE

LONDON, Sept. 14.—The Russian Soviet forces, it is reported from Moscow, have taken the offensive on both sides of Brdy, near the old Galician border, and are marching on Lemberg, according to an Exchange Telegraph dispatch from Berlin, dated Monday.

The Polish and Ukrainian troops, it is declared, have been driven back by the Russian cavalry.

Many States Are Holding Primaries

NEW YORK, Sept. 14.—Enrolled Republicans and Democrats of New York state went to the polls today to vote for candidates, who seek party nominations for the various state offices as well as for United States senator, representatives in congress and seats in both houses of the legislature.

Leaders of both parties predicted a large vote.

The most important contests of a state wide nature are for United States senator and governor on the Republican ticket and for United States senator on the Democratic ticket.

Opposed By Women

United States Senator James W. Wadsworth, Jr., who received the endorsement of the unofficial Republican state convention for governor, is opposed by Mrs. Ella A. Rode, state president of the Women's Christian Temperance Union and George Henry Payne, city tax commissioner.

Nathan L. Miller, of Syracuse, former judge of the court of appeals, disavowed of the unofficial Republican state convention for governor, is opposed by State Senator George F. Thompson.

The contest for the senatorial nomination on the Democratic ticket is between Lieutenant Governor Harry C. Walker, of Binghamton and Mayor George R. Lamm, of Schenectady.

Lieutenant Governor Walker is the nominee of the unofficial Democratic state convention.

There also will be a number of contests for congressional nominations.

Winter Campaign In Colorado

DENVER, COLO., September 14.—Colorado voters today are passing their verdict on a bitter primary election campaign.

Candidates for United States senator, for congress, judge of the supreme court and state and county officers, are to be named. The polls are open from 7 a. m. Mountain time, to 7 p. m.

In Denver interest centered largely in the Republican three-cornered senatorial fight, the bitterness of which resulted in 1911 conference.

Annually use these tablets of organic iron—Nuxated Iron—to build up blood, strength and endurance.

Dr. H. B. Vail, formerly Physician in the Baltimore Hospital and a Medical Examiner says:

"There are thousands whose bodies are aging and breaking down at a time when they should be enjoying that perfect health which comes from a strong, pure blood. By allowing it to remain thin, pale and watery, they are not giving the natural life force of the body a chance to do its work. Iron is the red blood food and in my experience I have found no better means for building the red blood corpuscles and bringing to give increased power to the blood than organic iron—Nuxated Iron." Nuxated Iron comes in tablet form and does not contain any ordinary metallic iron but only the finest quality of pure, organic iron which is easily assimilated by the blood.

Think well of the Dealer who is thinking of You

OBservers of changing conditions know there has never been a time in the history of the retail business in this country when *quality and economy* ideas—and the dealers who stand for those ideas—had such a hold on the public.

A demand is now sweeping over the country for better—more *serviceable*—more *economical* merchandise.

The straightforward dealer knows this.

He knows that *once public confidence is established*, a dealer's success is assured—that the public is only going to continue to buy from dealers whom it can trust and esteem—men who always place the interest of their customers first.

That is why, in the stores of over a quarter million dealers in this country, you will always find the Gillette out where you can see and examine it.

On top of the counter—in the show window—ready to be handed out first whenever a man comes in looking for a razor.

The Gillette is the only scientific shaving instrument ever produced.

It started—not with a theory or a desire to sell razors—but with the actual *shaving needs* of men everywhere.

And working from that, it developed into a *personal shaving service*—a service that has gone 'round the world and changed the shaving habits of thinking men everywhere.

Whenever or wherever the topic of a good shave comes up, the *Gillette habit* is always the final answer.

Vouched for and acknowledged by twenty million men the world over as one of the *cleanest, safest, most economical, most valuable* habits they have ever formed.

The dealer who hands you a Gillette is thinking first of your interests. Think well of him.

Pressler Home Robbed

A bold thief entered the bedroom of Charles Pressler, 1011 Washington street, sometime Monday night while he slept and stole his pocketbook containing about \$65 from his trousers pocket.

The theft was discovered this morning by Pressler when he arose and he immediately notified the police and secured the New Boston Night Guard in an effort to run down the intruder, who, presumably entered through an open window.

Two Robberies In Columbus

COLUMBUS, O., Sept. 14.—Smash away with men's wearing apparel going a display window with a brick, two men stole \$1,340 worth of fur from the Ecco company store, 239 North High street. YOUTH HELD ON ROBBERY CHARGE

Clarence Crabtree, aged 15 years, was the name given by a youth claiming West Virginia as his home, who was taken into custody by Deputy Sheriff Harry Dunham and Eliza Carter Monday night on a charge of larceny in connection with the theft of a sum of money from a general store conducted by Dr. Daniels at Mt. Joy. The lad, according to the officers, tapped the till while the proprietor was in another part of the store and was making away with the cash, which he had in his possession, when arrested.

The boy, who recently came on a visit to his grandfather at Mt. Joy, was brought to the county jail where he is held for the juvenile court. He denies his guilt.

Sells Coffee For Whiskey

Several New Boston residents were forced out of their money by a novel, though old game of fraud Monday.

A stranger offered to clean out his stock of wet goods at what it costs him, \$12.00 per quart he said, but he warned his friends of the Sahara and to make any display, or sample from more than the first bottle until he had gone, because he said these "dry" officials would spot him, sure, if his purchases were to become tanked up then.

Several persons changed \$12 for a bottle, and all sampled of the first bottle, which they say was "the real red stuff."

When he was gone, they opened their bottles—and alas, there was nothing but coffee, and poor coffee at that, the all cried up New Bostonians declared. The salesman has made good his disappearance.

Sunday School Meeting Success

The Tri-Township Sunday school meeting held in the Hamilton church Sunday, was a pronounced success. The attendance was large and the speakers were among the best ever heard there.

Rev. H. A. Wright, S. S. Upson, and H. W. Back were speakers, and all these timely themes. Music was furnished by the Hamilton choir. Mrs. Harrison and Jefferson townships were represented at the special meeting. Samuel Eakin of Madison township will entertain the October meeting.

School Days

Boys and girls will soon be trudging to and from school. They must be properly shod for they cannot do school work unless they wear comfortable, well-fitting shoes. And their shoes must be made of long wearing materials to stand hard knocks and scuffs.

Don't try to economize by seeing how cheap you can buy them, but buy good shoes at fair prices. They last longer.

No corns exist with nurses—for they know

Nurses don't have corns. Nor do doctors or their wives. They know Blue-jay and employ it. So do millions of others now. It is time that everybody knew this simple, scientific way to end a corn.

Do this tonight

Apply liquid Blue-jay or a Blue-jay plaster. Either requires but a jiffy. The pain will stop. Soon the entire corn will loosen and come out.

What that corn does, every corn will do. So this way means a life-long respite from the agony of corns.

Corns merely pared or padded rarely disappear. Harsh treatments often cause a soreness.

Blue-jay is gentle, scientific, sure. It is a creation of this world-famed laboratory. It is the right way. It will be the universal way when all folks know it.

Buy Blue-jay from your druggist. Watch it on one corn.

If the "Country Miss" will send me her name and address I will forward it to you.

Dear Miss Dolly—Please print the premium on an old U. S. coin. I have a penny minted in 1820. Please print some information about it.

A READER
1820 coins are not listed in any coin book.

Dear Miss Wise—Please tell me how a 14-year-old girl can spend her evenings. When I don't go to the shops I don't have anything else to do at home.

BLUE EYES
Spend your evenings reading, studying and sewing. You could also help with the dishes or look after your younger brothers and sisters. Ask your mother and she will find something for you to do.

Dear Dolly—I am going with a boy with whom I am deeply in love. At times I think he cares more for other girls than he does for me, although I have never seen him with other girls, but he carries another girl's picture in his pocket. I am jealous and think he should not do so. Please give me your advice.

BLUE EYES
Get hold of a picture of some good looking man and put it on the mantle or piano or some other conspicuous place where he will be sure to see it when he calls. Then when he starts to talk about his girl, you begin to "rave" about your latest crush. Don't let him know you are jealous, what- ever you do.

Dear Dolly—Please print in your column what will take white spots off a mahogany table, where dishes were placed.

A READER
If the stain is made by placing too hot a dish on the table it may be quite easily removed if rubbed at once. Sometimes simply rubbing it with hot milk or melted butter is all that is necessary. Kerosene oil and turpentine or kerosene oil and alcohol may be used with better results, if the stain cannot be removed at once.

Your Manners

IT IS CORRECT

To have the lights shaded from the guests' eyes at a dinner table.

To seat all the guests at a dinner party at one table.

To set the hour of a dinner party at seven, seven-thirty, eight, or eight-thirty o'clock.

To have a dinner last about an hour or an hour and a half.

To have a dinner served as soon as the last guest has arrived.

IT IS NOT CORRECT

To have more men than women, or vice versa, at a dinner party.

To overcrowd your dining room.

To attempt a larger dinner than you are capable of serving well.

To keep the dinner guests at the table over two hours.

To serve the courses of a dinner in rapid succession.

SOCIETY

JUST A FEW FASHION WORDS

Fashion words to the fashion wise they might be called, for these are not vague murmurings of what the world's wife will wear, but rather a few concrete and carefully chosen suggestions. And everyone is happy to note that prices are actually lower than they were last year for wearables of similar high character and charm.

Styled in Paris Made in America

All the chic and distinction for which Jenny is famous.

Needled by Verite and produced therefore at a price that you would be asked to pay for the most commonplace is this model of Duvet de Laine, French Seal Fur Trim, Silk Braid and Soutache Embroidery.

\$95.00

One of a number of distinctive new Verite models now on display.

Paris Models at an Everyday Price

Among the new Fall Suits tailored by Verite and shown exclusively by us is this smart origination created in the Paris Atelier of Jenny.

Here is the last word in correct and exclusive style in Duvet de Laine with French Seal Fur and soutache braid trim.

This distinctive Model is priced at \$95.00. Other Verite Models from \$50 to \$150.00.

The New Coats

You will look from one to another of these coats and wraps. You will slip into a few—those that seem even lovelier than the rest. Choice will be difficult because every one will be becoming.

The colors are so soft—the fabrics so velvety and smooth. Chambray, evora, velvety, marvela cloth, vel. de cygne, orlauder—these are a few of the new fabrics. Many of the coats are enhanced by shapely collars of rich fur.

Browns will be worn—Havana, seal, reindeer. Blues, too—in deep colorful tones. As to lines—dolmans, straight wraps, bloused models, fitted styles—all are correct. Provided they are developed on such graceful simple lines as are these.

Priced from \$25 and up.

Have You Seen the New Sweaters

A beautiful collection of the newest style Sweaters has just been received. They are so smart looking, so cozy and warm-like, and in such beautiful colorings and two-tone combinations, we know you will "love" them.

We cannot do them justice by merely describing them. Come in and see them.

There are Slip-on Sweaters with the new ripple skirt, in black-and-white.

Another smart model has the very latest soft roll collar, flare sleeves and flare peplum.

Pile Sweaters with or without sleeves in wool or silk fiber in the favored shades for fall. All prices up to \$27.50.

There's always a saving on Wirthmor Waists, for the many great economies of the Wirthmor Plan in buying materials, in the making and in the selling of Waists insures that.

Consider these facts: that for several months past, cotton fabrics have cost from 300 to 400% over pre-war days; that trimmings have advanced proportionately; that labor costs have gone up excessively and then you'll wonder as we do, how the prices has kept down so long.

That the price must now be advanced to maintain the quality is not in the least bit surprising; it's surprising rather, that this did not occur a long time since for during these past many months Wirthmor Waists could readily have been sold at \$2.00; in fact, would have represented splendid values at that price.

The New Wirthmor Waists Priced At \$2.00

\$2.00 is the lowest price at which a worthy Waist can now be sold. Up to this price the Wirthmor folks will hereafter build Waists that will be just as superior to all others at the price as have the Wirthmors in the past at the former price. For these things the word Wirthmor always will stand; style insurance; quality insurance; economy insurance; the positive assurance that you are receiving the very ultimate in value for your expenditure.

Wirthmor Waists Can Be Sold In Just One Good Store in Every City.

Mazola fried 24½ pounds of potatoes—lard fried only 7 pounds 14 ounces!

THAT Mazola is a better and more economical frying fat than lard has again been demonstrated. This time by Mrs. A. Louise Andrea, admittedly one of the greatest experts in modern cookery.

Mrs. Andrea found that 4 lbs. of Mazola, cooked down to 2 lbs., fried 24½ lbs. of potatoes. While 4 lbs. of lard cooked down to 2 lbs. fried only 7 lbs. 14 oz. potatoes.

Tested on fish steaks, one inch in thickness, Mazola fried 25½

lbs., while lard fried only 16½ lbs. of fish.

Of doughnuts cut uniformly 2½ inches in diameter, Mazola fried 208, while lard fried only 138.

This proves conclusively that Mazola goes more than three times as far as lard for frying potatoes; almost twice as far for fish; and two-thirds farther than lard in frying doughnuts.

No housewife who wants to use the most wholesome, as well as the most economical cooking and salad oil, should fail to order Mazola from her grocer today.

Haysner, of Coon county, New Hampshire.

In his bill of complaint, Haysner alleges "manipulation" of the books of the company.

Robertson Is Dismissed On Speeding Charge

"The complaint is not supported by convincing evidence," said Judge Small Monday in dismissing the case of William T. Robertson, 2142 Ninth street, a prominent steel worker, brought to trial in Municipal court on a charge of speeding.

The charge against Robertson grew out of a collision in which his automobile figured with the Chevrolet machine of J. H. Adams, on Rhodes avenue, near the Peoples tramway crossing, recently, and in which the Adams car was considerably damaged, and Lynn L. Jones, one of its occupants, was buried through the wind shield and hurt about the face.

The evidence disclosed that Robertson lost control of his machine, and that it skidded on the wet, paving into the Adams car. The court held that it was an unavoidable accident and that Robertson was not criminally responsible, declaring that it was more in the nature of a civil action for damages.

The accused was defended by Attorney Ralph Arr and Attorney W. J. Sprague represented the prosecution.

Now Brush Teeth

In the new way—Remove the film

All statements approved by authorities

Try this new way of teeth cleaning. The test is free. It has brought to millions whiter, safer teeth. Leading dentists everywhere advise it. See the results, then learn what they mean to you.

What ruins teeth

Teeth are ruined by a film. You can feel it—that viscous coat. It clings to teeth, gets between the teeth and stays. And most tooth troubles are now traced to it.

It is this film-coat that discolors—not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Now we combat it

Dental science has in late years found a way to fight film, day by day. High authorities have proved it by many careful tests.

Millions of people have adopted it, largely by dental advice. To careful people it is bringing a new era in teeth cleaning.

These new methods are all embodied in a dentifrice called Pepsodent. And you are urged to prove it by a pleasant ten-day test.

Five important effects

Pepsodent has five effects, all of them essential to cleaner, safer teeth. One ingredient is peppermint. One multiplies the starch digestant in the saliva to combat starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

In two ways it attacks the film directly. Then it keeps the teeth so highly polished that film cannot easily cling.

It differs vastly from the old-time tooth pastes, which dentists now know were wrong. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. Within a week you will know that your teeth are protected as they never were before. And you will always want your teeth to look and feel like that. Cut out the coupon now.

has an altogether different set of ideas. Moreover, the big copper companies with billions in wealth and assets are not amateurs in the game of fighting radicals. They have a strange way of taking radicals to their homes and while the business interests of North Dakota have finally organized to fight the Non-Partisan League and have already equipped a state office, the conservatives and money power in Montana is already well equipped to handle the Non-Partisan League even if it should happen to get possession of the state government next autumn.

Neither the Cox nor Roosevelt trip set this state on fire with excitement politically. Criticism of the speech and tests chosen for Montana was heard by the writer not only among Republicans but Democrats.

Some of the radicals who are supposed to be supporting the Democratic national ticket weren't won by Governor Cox's boast about his failure to use the bayonet to settle labor disputes.

They all are inclined to regard Cox and Wilson as identical and they would have really shied for the Democratic presidential nominee. If he had said he would free Debs and the other inhabitants of federal jails.

Also, while Governor Cox pledged himself to plead the Irish cause before the League of Nations if he were elected, the friends of Irish freedom declined to be satisfied with that and some of them announced that Cox wouldn't do. They haven't any assurance that Harding is any more friendly to the Irish than is Cox, but around here many Irish Democrats say they will vote for the Republican presidential nominee.

All these defections from the Democratic ranks are expected to be made up by the new votes that will be cast by former Republicans who are a part of the Non-Partisan League movement and who in their anxiety to put the said league in power will vote the straight Democratic ticket, presidential electors and all. Governor Cox's

chances of carrying the state are unquestionably better than those of Senator Harding.

pay money, and prevented America from being caught in the snares and tangles of their blundering in Paris.

Living as an example the foreign competition confronting California fruit growers, Senator Harding declared that "if to save this or any other worthy and developing agricultural industry of America, tariff protection is necessary, then tariff protection must be given." He added that "a long list" of farm products might be found to require such protection, though any tariff revision must be based on general and not class interest.

Discussed Race Question

Discussing the race question as presented in the Pacific coast, the candidate said:

"Today you have come here from the Pacific coast of our country. I do not doubt that Americans on the coast are troubled in their minds about the Oriental question as it is called. That question raises every interpretation of our watch word, 'America first' for it involves four sets of obligations. It involves the obligations of all Americans toward one group of American states and their peoples. But it also involves the obligations of that group of states to the nation.

"There is abundant evidence of the dangers which lurk in racial differences. I do not say racial inequalities—I say racial differences. I am ever ready to recognize that the civilization

of the Orient is older than ours, that her peoples have their proud and honorable traditions.

"In spite of the honor of these Oriental peoples and in spite of their contributions to the world's advancement, it is conceivable that they may be so different in racial characteristics or in manner of life or practice from other peoples of equal honor and achievement, that no matter whether it be on the soil of one or upon the soil of the other, those differences, without raising any question of inferiority, superiority or inequality, may create, as I believe they have created upon our Pacific coast, without blame to either side, a friction that must be recognized. The nations owe it to the Pacific coast to recognize that fact. The nation owes it to the Pacific coast states to stand behind them, in necessary measures consistent with our national honor, to relieve them of their difficulties.

"The problem incidental to racial differences must be accepted as one existing in fact and must be adequately met for the future security and tranquility of our people. We have learned during the anxieties of the world war, the necessity of making the citizenship of this republic, not only American in heart and soul, but American in every sympathy and every aspiration.

"No one can tranquilly contemplate the future of this republic without an anxiety for abundant provision for admission to our shores of only the finest grained who can be assimilated and thoroughly imbued with the American spirit.

"From the beginning of the republic America has been a haven to the oppressed and the aspiring, from all the nations of the earth. We have opened our doors freely and have given to the peoples of the world who came to us, the fullness of American opportunity and political liberty. We have come to that stage of our development where we have learned that the obligations of

citizenship of necessity must be assumed by those who accept the grant of American opportunity. From this time on, we are more concerned with the making of citizens than we are with adding to the man power of industry or the additional human units in our varied activities.

"As a people and a nation, as Governor Stephens has said, we do have the moral, the natural and the legal international rights to determine who shall or shall not enter into our country and participate in our activities. With a new realization of the necessity of developing a soul distinctly American in this republic, we favor such modification of our immigration laws and such changes in our international understandings and such a policy relating to those who come among us, as will guarantee to the citizens of this republic not only assimilability of alien born, but the adoption by all who come, of American standards, economic and otherwise, and a full consecration to American practices and ideals."

remember Hughes had only 6,447, more votes than President Wilson in the state, and the Democrats carried the country. Yet in 1918 Governor Milliken defeated the Democratic candidate by only 3,545, and that year saw Republican success in the congressional elections in the country. The total vote of the state, however, was only 121,669, nearly 30,000 less than in 1916.

PARKHURST

HANCOIL, Me., Sept. 14.—Colonel Frederick H. Parkhurst, Republican candidate for governor, in a statement today on the election, said that the campaign has been vigorously conducted by the Democrats on national issues, the result must be accepted throughout the country as giving some conclusive evidence that the voters of Maine resent the autocratic and un-American administration that the Democrats have given us during the past seven years.

"It is equally an endorsement of Harding and Coolidge," he added, "who will be elected in November by a decisive majority."

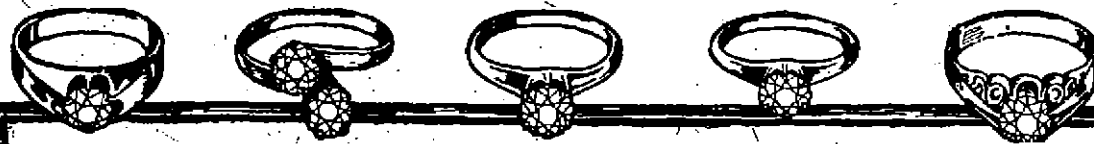

SEMP

WASHINGTON, Sept. 14.—The Republican majority of 50,000 indicated by the returns from Maine, is merely a foretaste of what will happen in November, according to members of the Republican campaign committee here tonight.

"Democrats cannot dodge the fact that it is the people's answer on the League of Nations," said Representative C. Bacon Semp, district director of the Republican national committee. "Members of President Wilson's cabinet campaigned the state and made a personal plea for his policy. The result is plain," he added.

Cox To Win Montanas

(Continued from Page One)

pect to political lines in North Dakota is studied.

For while the Non-Partisan League captured the legal machinery of the Republican party in North Dakota, the same Non-Partisan League, plus the labor elements in Montana, seized the Democratic machinery in the state primaries this year and nominated their own man for governor, U. K. Wheeler, formerly a United States Attorney, whose record of friendship for the radicals and I. W. W.s during war times caused the Wilson administration to fail to reappoint him when his term expired last year.

It so happens that Governor Cox received Mr. Wheeler on the train while campaigning in Montana last week, although this pleased the Non-Partisan League Democrats it made the old time Democrats and conservative elements in the state swallow hard.

The situation is so acute that while the Democratic state ticket of Non-Partisan Leaguers has officially enlisted on the part of the Non-Partisan Leaguers would the Non-Partisan group in North Dakota formally approved of Harding as their prey in the primaries just as Cox and Coolidge, this very little bear, in North Dakota.

ing on what the rank and file will do. There are some Democrats who are for instance, while the Democratic interested in national politics who politicians who had the party machine think the affiliation with the Non-Partisan League absolutely necessary.

primaries may hesitate for reason for expediency to say publicly they will support the Republican candidate for governor, which is former United States Senator Joseph Dixon. The truth is the regular Democratic vote will be split and only a part of it will go to the Non-Partisan League Democrats.

Party lines are disappearing in the autonomy the Democrats and Republicans cherish against the intrusion in Montana affairs of Toxicology and other North Dakota experiments in Democratic radicalism. Its had enough to have three crop failures in succession and its hard luck to waste millions of dollars on seed and see the whole state retarded in its growth and development by factors over which there is no human control, but when a set of persons deliberately throws a monkey wrench in the struggling wheels of an infant state like Montana the fortunes of the state are bound to be dark and little, the property owner and the poor, the thoroughly comprehensible, it hurts.

The Democratic press, which predominates in this state is either lukewarm or hostile to the state ticket of the Democrats elected on the part of the Non-Partisan Leaguers would the Non-Partisan Leaguers would the Non-Partisan group in North Dakota formally approved of Harding as their prey in the primaries just as Cox and Coolidge, this very little bear, in North Dakota.

ing on what the rank and file will do. There are some Democrats who are for instance, while the Democratic interested in national politics who politicians who had the party machine think the affiliation with the Non-Partisan League absolutely necessary.

state to Cox. But there are others who wonder if such of the Non-Partisan League vote will not go to the Christian labor candidate for president, or Debs.

In Butte, after talking with some of the radicals, the writer got the impression that a large vote would be cast for both Debs and Christiansen if their names were placed on the ballot. It takes five thousand signatures to do this, something quite easy to get in the mining camps. But it would take confidence on the part of the Non-Partisan League and labor chiefs to start such a movement and the consequence might be fatal to the chances of Mr. Wheeler and the Non-Partisan League state ticket. For the latter cannot win the state by their vote alone—they must acquire at least half of the regular Democratic vote.

Anything that savors of a desertion of the Cox national ticket would be met by defections among those Non-Partisan Leaguers who are holding their hands open on the subject of Mr. Wheeler's candidacy. Moreover much of the Christiansen or Debs strength is the normal socialist vote. Probably at heart Mr. Wheeler isn't as dangerous a radical as the organization surrounding him. His radicalism is said to be the result of resentment over the criticism leveled at him while he was United States Attorney.

In the Democratic state convention at Helena a few days ago, Mr. Wheeler went out of his way to say that he was and it is a Jeffersonian Democrat and that he hoped the people of the state would recognize a distinction between a man like Senator Dixon, who he alleged had sought the Non-Partisan League endorsement by supposed communication with Toole in North Dakota and a man like himself. (Wheeler) who he included, had received the voluntary support of the Non-Partisan Leaguers.

The so-called situation between Mr. Dixon and the Non-Partisan Leaguers has been indignantly denied. While Mr. Wheeler's use of the word "voluntary" has been questioned by those who think that he did not go to North Dakota to get Toole's support, but effected an understanding with whom was far more important the labor leaders of Montana upon whom Toole has been relying for the creating of a farmer-labor alliance in this state that could carry out the Non-Partisan League program. Of course, the radical movement is disappearing from Montana and North Dakota do not furnish the same opportunities for success in a radical program like that attempted by Toole.

J. T. KELLEY GAINS 20 LBS. ON TANLAC

"I have gained twenty pounds by taking Tanlac and am in such fine health that I don't believe I could feel any better than I do now," said John T. Kelley, who resides at 435 East Tenth street, Newport, Ky.

"My troubles started about two years ago and they kept increasing until it looked like everything in the world was wrong with me. My stomach was all out of order and nearly every bit of food I ate caused gas to form. I lost my appetite and couldn't eat enough to keep up my strength. I went down in weight 22 pounds and got so weak that it was risky for me to walk in the street alone."

"My nerves were shattered and I would jump at little noises I had been used to all my life. I couldn't sleep to do any good and in the morning I felt so weak it was a job for me to get out of bed and dress myself. I was constipated all the time and had headaches and dizzy spells nearly every day, and several times was so faint I fell right down in my tracks before I could catch hold of something."

"I was in Cleveland, Ohio, about three months ago, and a friend of mine recommended Tanlac to me, and I decided to try it. Before I finished the first bottle my appetite had come back and what I was eating was agreeing with me. From then on I picked up fast and today, I'm in as good health as I was the best day of my life."

"I am no longer constipated and don't have headaches or dizzy spells any more. The nervousness has all gone and I put in sound sleep every night of the world. I feel as well as I could and have made arrangements to go to work next week on the Ohio river steambarge running between Cincinnati and Huntington. This is what Tanlac has done for me and in my opinion it is the best medicine ever made."

Tanlac is sold in Portsmouth by the Fisher and Stock pharmacy and the leading druggists in every town.

Real Romance—Glorious Adventure—Beautiful Scenes of the Tropical South Sea Islands—Don't Miss Delightful Edith Roberts as a Hula-Hula Dancer in Her Newest Picture "The Adorable Savage" at the Eastland Theatre Tomorrow and Thursday—Musical Setting and Other Features.

Edith Roberts, the popular Universal star, will be seen in an entirely different role tomorrow at the Eastland theatre when she appears at Marana in "The Adorable Savage," a story of unusual type in which she is directed by Norman Dawn. This is a romance of the South Sea Islands written by Ralph Stock, and held to be one of the most elaborate photodramas ever produced.

In "The Adorable Savage" Edith Roberts appears as a young girl, half American and half Fiji Islander, who returns to her home in the South Seas after years in an American boarding school where she has been reared among cultured surroundings. The discovery that her blood is tainted at

first produces grim despair in Marana's heart; then the sensuous strains of the South Sea music and picturesque customs of the natives gradually entrance her and invite her to forsake all the refinement of civilization and revert to the native life.

Templeton, a young American, finds to Marana an ideal for his own regeneration, and at the same time inspires the girl to cling to the ideals of her education and early environment.

Other features on the program are the International News—a new Star comedy—Urban's Movie Chats, something different and a special musical setting by the Eastland orchestra.

One of the Biggest Screeners of the Year Is "Dangerous to Men" Starring Viola Dana at the Eastland Theatre a Tonight for the Last Time—Hundreds of People Were Pleased and Delighted with this Picture Last Night—Don't Miss It Tonight.

Viola Dana, who plays the school girl Eliza in the Metro production of "Dangerous to Men" now showing at the Eastland, never spent a day in school herself. Yet at 22 she has accumulated fame and fortune and shown more promise of big future development than almost any of the younger stars.

"I imagine I may have learned more things by staying away than by going through the routine of daily study," said Miss Dana recently. "It makes me feel rather like living up with George Bernard Shaw in his criticisms of conventional education. From some

of the results I have seen of people who have given most of the precious years of their lives to school and college, I am convinced that for those individuals they are not in any true sense 'educated.'"

A new extra added attraction on tonight's program is the first of the Booth Tarkington stories pictured. This one is titled "Foghorn" and the Tarkingtons are noted for their famous boy stories and you will be able to see them all at the Eastland.

Fast-Freight Tires That Ease the Way for Trucks

Just as steel rails fit the load, smooth the road and lighten the pull for the swift locomotive, so General Cord Truck Tires are fast-freight tires that ease the way for trucks. Slow-freight tires can crawl on solid tires in limited areas where the road permits. But where time, territory and roughness are conditions of fast-freight, the truck must carry its truck with it—must have tires of minimum friction that deliver speed and distance with extra endurance. The General Cord Truck Tire is a rail on the rim—that lifts, lightens, smooths and speeds.

With the rapid extension in the use of trucks, the fleet owner is making no mistake in following the reputation that General Cord Truck Tires have made for themselves.

OH, YOU PETE:

Remember Ratty Waters who tied the dishpan under Prof. Bunn's car at Princeton? He's more seriously inclined now—sells high grade bonds! Ran smack into Ratty as he was hustling for his a. m. fodder with a Camel cigarette perched between his lips and looking as happy as a turtle on a log! It's a pretty art—this opening up the morning with a Camel!

Well sir, Pete, what Ratty rattled into my rafters would supply Camel selling stuff for a year! "There's nothing to this cigarette game but Camels," said Ratty. "Their mellowness is a revelation and I never did run into such mildness in my life! And, when you figure that Camels have ALL the 'body' any smoker wants—well, I just marvel that such a cigarette could be made! Ever get such refreshing flavor?"

For instance, Ratty spread this:—"Shorty, I can't stand the usual unpleasant cigarettey aftertaste and unpleasant cigarettey odor! Camels are free from both! (100 per cent. O. K., Pete!) And, they never tire my taste! When you pass by Camels you have slipped by your smoke signals!"

Tried to get Ratty to put some of that sales talk on paper, but he came back:—"You tell 'em, old kettle—you've got the spout!"

Pete, Camels won Ratty's favor like they've won thousands of others! They'll win any man who gives them a chance!

ALICE JOYCE IN "SLAVES OF PRIDE"

Lincoln Tonight—Big Double Program. Alice Joyce in "Slaves of Pride." In This Luxury Proved To Be Dross Without Love. Also Last Chapter of Antonio Moreno Serial. The art of registering on the screen the workings of the brain and the innermost frame of mind of certain characters is reported to be specially demonstrated in Vitaphone's newest feature, "Slaves of Pride." Alice Joyce is star of this production, which is scheduled as the attraction at the Lincoln tonight.

"Slaves of Pride" is a screen drama on the theme of supreme pride. It unfolds a visual statement of how pride can fasten itself on certain types of mind, overpower them in the fashion of a disease and lead the victim into strange experiences. Miss Joyce plays the role of a beautiful girl who is sacrificed in matrimony to the goal of wealth. Come early to avoid the crowd.

PENNANT RACE IN THE AMERICAN LEAGUE MAY NOT BE DECIDED TILL THE LAST WEEK

The battle for place in the American League is going to be decided in the last week, or perhaps the last day of the season. If the opinion of Jimmy Burke carries weight, the fiery leader of the Browns declared recently that none of the three leading teams had reasons to look to the future with any undue confidence. Close and grinding as the battle is now, Burke believes that it will still more furious in the closing days of September.

While watching with eager eyes the ebbs and flows of the tide of battle in the league Burke is stung right in the

fourth place, ready to play the part of purveyor and killer. His team is known for its fighting spirit, and while it may not be a championship contender, it is dangerous. Burke said he would concede nothing, and that while it might seem a bit out of line, he did not consider it utterly impossible for the Browns to have a through and grab off a minor share of the world's series action. A sudden slump on the part of the leaders, and the Browns would be right up there when the big divide is made.

Trinko takes issue with those who have read the Yankees out of the race for chief honors. He insists that there is enough smush and crash in the league to carry them right to the top of their league, no matter what the rival organizations may send against them. The loss of the Browns' pitching strength, hitting strength and a rugged defense in the Yankees, and a made desire to break out in hitting streaks that may decide a game in any inning, no matter the score against them, Burke voices the sentiment. The two that had it not been for the unfortunate sequence of accidents which robbed the Yankees of their strongest players, the standing of the league might be different.

"The leaders in the American League race are just beginning to fight," said Jimmy Burke. "And you can say that the Yankees are in there to remain until the last game is played. I look for this same nip and tuck struggle to last until the teams come down to the last week of the season. Chicago is a strong, well balanced team, with the confidence of champions, and the ability to play along to the finish. The Sox moreover, have a lot of speed, and this asset is one of the greatest in baseball. It is one thing to have the ability to slug, but a team must be able to do many other things. The Indians may find it hard to readjust themselves, but Speaker has a clever team, and he is a natural leader.

"The Yankees are factors, strong factors, and neither Speaker nor Gleason can dislodge them lightly. If they even attempt it, Huggins will drive his men right into the championship. No matter what Chicago or Cleveland do, the Yankees are just as likely to win the pennant as either of the chief rivals. They are so close to the lead that anything may happen. Another thing, the Yankees have always been a good road club.

ALL STARS VS. SOLVAYS SUNDAY

At the request of many of the fans who witnessed the great 11 inning game at Millbrook Park last Sunday between the champion Solvays and All Stars, which was won by the former, 5 to 6 the same team will play next Sunday, with the same line up as last Sunday. Arrangements are now under way for the Solvays to play at the Millbrook Park on Sunday, September 20. It is stated that last Sunday more than 600 of the Solvays' employees were on hand to root for their team. There were not more than twenty-five faint hearted employees who did not come, and these have been so fired by the great victory that they are now getting their noise making devices ready and expect to make up for their oversight of last Sunday.

In the meantime the All Stars managers are organizing and they are going to challenge the Solvays' support in a routing sense. All in all, it looks as though one of the biggest crowds of the year will be out. Donkeys and Daughlins will be the opposing pitchers and this means a battle well worth seeing. The game will start promptly at three o'clock, with Tompkins Yeager and Spencer in charge.

ALL STARS BOOK GAME IN WAVERLY

Manager W. N. Gableman of the All Stars, stated Tuesday, that he had booked his team for a game in Waverly on Thursday, September 23.

"This will be a big day in the Pike county metropolis and no doubt the game will attract hundreds of fans to the village ball yard.

Waverly has a good team and the All Stars will take their regular lineup to that village.

Will Latonia Meeting Be Up To Standard?

(Continued)

The Latonia meeting is rapidly approaching, and in some quarters is heard the cry that money is too tight to those of former years. This talk is ridiculous.

The Latonia meeting is going to attract the best horses in America, and when it does that the public is going to see these horses perform. The entry list of those which are going to compete is proof enough that the best in training are going to perform. The Eastern stables entered only in the greatest events, and they will make such Western pilgrimages as the condition of their strings will warrant. But when one of these Easterners look to have a chance he will be here running in all events.

Those who would point to Saratoga and claim that that point did not have the meeting it staged last year must remember that all men and Stock Exchange members do not constitute the clientele of Latonia.

The Reason.

"Why is it that hot soda isn't more popular with the ladies in cold weather?" "We have tried hard," explained the druggist, "but can't perfect any way to serve ice cream in it."

Sound of a Bullet.

The sound of a military rifle bullet, traveling at 1,500 feet a second, is like that of a long blacksnake whip violently cracked. However, the bullet beats the sound, and if a man struck by one hears a cracking it is from some other missile.

BUD FISHER BUYS HORSES

LOUISVILLE, Ky., Sept. 14.—Bud Fisher, New York cartoonist, Fisher paid the Pittsburgh man \$25,000 for the two horses, which were kept at a stock farm at Paris, Ky.

St. Paul Cinches Pennant

ST. PAUL, Minn., Sept. 11.—St. Paul has won the 1920 championship of the American Association, its victory in one game of a double-header at Milwaukee yesterday clinching the pennant.

With only 22 games on the league's schedule, they now have a lead of 22 1/2 games. St. Paul has won an even 100 games out of 113 played.

WHAT MR. RUETHER SAYS

Ruether says his nemesis in bad shape and he may not pitch many more games this season. A good many fans thought something was the matter with his tank instead of his arm.

If Ruether had come through on schedule the Reds would now have a six or seven game lead. They will be lucky to beat out the Giants.

Joe Serra Wins Fight

WASHINGTON, C. H. O., Sept. 13.—Joe Serra, Columbus, knocked out Alvin Brown, Dayton, knockout, in the seventh round of a scheduled 10-round bout here last night.

Memories of Savages.

Few memories of our boasted civilization have memories equal to those of some savage rituals who can call on the ancestors of their gods through hundreds of generations without omitting or misplacing a single name. In his complex religious ceremonies and in the acts of war and the chase the savage displays an intelligence quite equal to our own in breadth and depth, although of an entirely different kind.

Getting His Own Measure.

"Does your wife lecture you?" "No," exclaimed Mr. Nicholson. "Why? Heretofore she wouldn't waste her time lecturing a little bit of an audience like me."

Promotions.

Fatherless Belcher.—How are you going to describe a comment on this affair? Press Writer.—I am going to tell you all important facts and put the name where it belongs. Fatherless Belcher.—There, I knew all the time that you were bitterly prejudiced against us.—Longville Leader.

When He Was Laid Off.

"I remember you will remember your wedding trip?" "Yes, indeed. And I remember that my husband had conspired to care as little for money as he seemed to care that first journey we took together."

Perry To Meet Champion

TOLEDO, O., September 14.—Jack Perry, the welterweight champion, will meet Jack Britton, a legitimate contender for the title, in 12 rounds here Wednesday, September 22. Contrary to reports, the fight will be refereed by the referee.

Texas League Season Ends

DALLAS, TEXAS, September 14.—The 1920 season of the Texas League closed with yesterday's games, Ft. Worth having won the pennant by taking both the first and second half of the split season. Negotiations for a post-season series between Ft. Worth and the winning club of the Southern Association are under way.

Here Is Chance For A Game

The fast nine representing the Ashland Iron and Mining Company would like to book a ball game with some Portsmouth team, the team being anxious to meet the Portsmouth team Sunday, the final count being 10 to 3, with the result never in doubt.

The little sidewheeler was in fine shape.

Fullerton Defeats Lucasville

Dwight's pitching was too much for Lucasville, and Fullerton whaled the Valley township champions at Coney Island Sunday, the final count being 10 to 3, with the result never in doubt.

Wouldn't This Carry You Away?

Pipe this one a sport writer has fashioned after the names of the Pirates:

"The Cooper, forced to ponder in Grim silence over the troubles caused by the Dreyfus, looked sadly towards the South and murmured: 'No use! What is the South?' And even as he spoke he was struck by a Diogenes in a Barbarous manner and they had to carry him away!"

It's worth a Nicholson.

BABE GETS ANOTHER

DETROIT, Sept. 11.—Babe Ruth's field bleachers, scoring Pipe ahead of the team in the fifth inning, his him and uttering a one-run hit forty-ninth of the season, won New York from Detroit, 4 to 2. Ruth hit into the center.

Mays kept the blows scattered.

Keep Eye On Brooklyn

Keep your eye on Brooklyn. The team has now won ten straight games. Who will stop them? Posing the riddle. Well they will hate to, or they will be entirely out of the race. The Robins look like the one for let in the National League days.

They all have to crack a smile."

AH, ZEE CARPENTIER PEEVED

NEW YORK, Sept. 11.—George, champion Jack Dempsey, is said to have several months ago with an impressive backdrop of American dollars, was fastidious in his fastidiousness. He was very much concerned over the articles published in this country, criticizing him as a fight starter. And Carpenter, who related to France, a decent boxer today,
